

Learn practical agile leadership and management approaches

Management 3.0 Foundation

Unlock managerial potential through innovative tools and perspectives in Management 3.0

16 Hours of instructor-led learning, with in person and online options

The Management 3.0 Foundation Workshop covers the theoretical and practical agile management, with a strong focus on practices that can be adopted immediately.

Exploring leadership shifts, leaders learn approaches to deal with complexity and managing individuals and teams through change.

This is an interactive course, that provides ample space for self-reflection and innovating on the way you approach leading and managing people.

During this training course, the following topics are covered:

- Management and Leadership
- Principles of Management 3.0
- Complexity Thinking
- Motivation and Engagement
- Delegation and Empowerment
- Values and Culture
- Learning and Competencies
- Scaling Organisational Structure
- Change Management

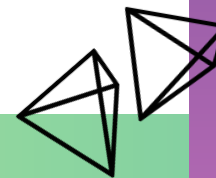

What you will learn

- Describe the difference between 1.0, 2.0 and 3.0 management
- Practice a range approaches to deal with complexity and uncertainty
- Improve engagement with employees and team members across various situations
- Increase employee motivation using Management 3.0 mindset and practices
- Empower your team leveraging clarity to create trust and autonomy
- Self-reflect on your own areas of leadership development

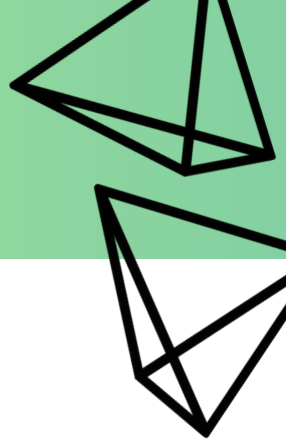

About Alchemy Learning

Take a step towards feeling engaged and energised about your career. Choose from our diverse range of courses and embark on a transformative journey of building capability for the future.

“Learning about emerging leadership practices has been incredible and has helped me grow as a leader. The combination of training and certifications has enabled me to feel more confident to try new approaches when engaging my team.”

- Nat, Atlassian

Who will benefit

This course is suitable for any professional looking to enhance their leadership skills and embrace the principles of Agile management such as:

- Those looking to progress into team management roles
- HR Professionals, thinking about new frameworks for agile environments
- Scrum Masters, Agile Coaches or Facilitators looking for new ways to engage people
- Change managers
- Product Owners & Product Managers

What you get

- Upon completion, you will receive a Foundation Workshop Certificate of Attendance.
- Downloadable eBook and practical resources for use with your team
